# Annual Report on Migration and Asylum 2023 - EMN Observer Country Statistical Annex

European Migration  
Network

October 2024

## Disclaimer

This Annual Report on Migration and Asylum 2023 was produced by the European Migration Network (EMN), which comprises EMN [National Contact Points](#) (NCPs) in the EMN Member (EU Member States except Denmark) and Observer Countries (NO, GE, MD, UA, ME, AM, RS), the European Commission and is supported by the EMN Service Provider. It does not necessarily reflect the opinions and views of the European Commission, EMN Service Provider or the EMN NCPs, nor are they bound by its conclusions. Similarly, the European Commission, the EMN Service Provider and the EMN NCPs are in no way responsible for any use made of the information provided.

## Explanatory notes

This Statistical Annex to the 2023 Annual Report on Migration and Asylum of the European Migration Network (EMN) provides an overview of relevant statistics for EMN Observer Countries: Armenia, Georgia, Moldova, Montenegro, Serbia and Ukraine.<sup>1</sup>

Data were provided by EMN National Contact Points (NCPs) and are organised in nine thematic areas, following the framework of the 2023 ARM and are in line with the EMN Member States (plus Norway) Statistical Annex, co-produced by Eurostat and the EMN: legal migration; international protection; protection for those fleeing the war in Ukraine; unaccompanied minors; citizenship and statelessness; visas; irregular migration; trafficking in human beings; and return and readmission. The lay-out is in table form with notes where necessary to explain the data presented.

Data is provided for 2023 in all cases and for 2020-2023 where available and easily presented. Data on the protection of those fleeing Ukraine is provided from March 2022, and for the whole of 2023.

The data presented were collected during March-July 2024 through a common template and the manuscript completed in August 2024. More recent data may become available from the relevant national authorities at a later date.

This is the first EMN Observer Country Statistical Annex and is a welcome addition to enhance understanding of the migration situation and trends in those countries.

Georgia note: Foreign national figures represent the number of foreigners with a valid residence card in Georgia. All valid residence cards are counted at the end of each year (31 December). Georgian residence cards issued to foreign citizens who have obtained Georgian residence permits (temporary or permanent) and are registered in the territory of Georgia for the reference year.

Moldova note: These figures do not include the displaced people from Ukraine currently residing in Moldova under emergency status. Based on data from the General Inspectorate of Border Police, the number of displaced people from Ukraine residing in Moldova is 98226 (89374-Ukrainian citizens).

Montenegro note 1: total population in the country in 2023, as shown by the preliminary results of the population census was 2% more than in 2011, when the last population census was conducted. There is no data for 2020, 2021, 2022.

Montenegro note 2: the number of foreign nationals includes all foreigners with an approved temporary residence permit, extended residence permit and permanent residence permit.

Serbia note 1: These figures include foreign nationals that have temporary residence permits issued more than one time consecutively (i.e. 12 months residence condition fulfilled), those that obtained temporary residence permit for one year for the first time and foreign nationals with permanent residence. The data does not include temporary protection beneficiaries.

Serbia note 2: the number of foreign nationals is as of 31 December 2023, while total population is as of 1 January 2023.

Armenia note: Following Azerbaijan's military operation in Nagorno-Karabakh on 19 September 2023, over 115 000 Nagorno-Karabakh (NK) Armenians were forcibly displaced and found refuge in the Republic of Armenia. On 26 October 2023, the Armenian Government adopted a decision to grant temporary protection to those forcibly displaced from NK. According to Armenian legislation, the population of NK have been granted temporary protection status, which envisages provision of a special document (Temporary Protection (Refugee) Certificate). Refugee arrivals represent over 3.4 percent of the country's population and are in addition to a pre-existing refugee, asylum seeker and stateless population of some 36 000 people. It should be noted that NK refugees are different from the other groups granted international protection since they were granted refugee status on the bases of the Government Decision and individual asylum procedures were not applied to the NK population. They are not included in these figures.

Georgia note: Asylum applicant: A foreigner or a stateless person who has applied for international protection to the State authority and in respect of whom the Ministry has not made a decision or in respect of whom the court decision has not entered into legal force. In the event of cases when an asylum-seeker withdraws a claim/appeal, appeals the court's decision concerning the withdrawal of a claim/appeal and/or re-applies to the court for international protection, s/he is not considered as an asylum applicant. In case of submitting subsequent application for international protection, a foreigner or stateless person is considered to be an asylum seeker only upon issuance of an individual administrative-legal act on admissibility.

		Humanitarian status	n/a		n/a
		Subsidiary protection status	45		16.98%
		Rejected decisions	212		80.00%

Number of asylum decisions per outcome:

Armenia note: totals include refugees from Ukraine.

Georgia note: Humanitarian status in Georgia is equivalent to subsidiary protection status in the EU.

Montenegro note: the total of 173 decisions includes 63 terminations of the asylum procedure, 36.4% of decisions taken.

The Department for foreigners, migration and readmission within the Ministry of Interior is responsible for issuing temporary residence permits based on humanitarian status, according with Article 52 of the Law on foreigners, and the number of issued permits on this basis is 34. Humanitarian status is given to:

- 1) a foreigner who is presumed to be a victim of trafficking in human beings or a victim of a criminal offense of domestic or family violence;
- 2) a minor who has been abandoned, or victim of organized crime or unaccompanied, illegally employed;
- 3) a foreigner for particularly justified reasons of a humanitarian nature (cases caused by force majeure, serious illness, permanent disability and other).

Serbia note: humanitarian status is not regulated by the Law on asylum and Temporary Protection. However, in 2023, temporary residence on the ground of humanitarian reasons was issued for 59 persons in accordance to the Law on Foreigners. The total of 490 decisions includes positive decisions (refuge and subsidiary protection), rejected applications as well as decisions on discontinuation of the examination of the application and second instance decisions.

Armenia note: Ukrainian citizens were not provided with temporary protection in Armenia. All of them were granted refugee status as per Armenian Law on Refugees and Asylum, Article 6, Section 1, Clause 2 definition of a refugee, as: 2) a foreign citizen who is forced to leave his or her country of citizenship (or a stateless person who is forced to leave his or her country permanent residence) due to widespread violence, external attack, internal conflicts, massive human rights violations or other serious events disrupting public order.

Georgia note: In Georgia there is no protection scheme for Ukrainians similar to the EU's temporary protection status. Georgia has not enabled the Temporary Protection mechanism stipulated by the Law on International Protection. Even though the number of persons who fled the war in Ukraine has increased in Georgia, no mass influx has been identified and the number of applications on international protection made by citizens of Ukraine is also low. Consequently, asylum seekers from Ukraine are being granted Humanitarian Status (a form of international protection equivalent to subsidiary protection in EU). Ukrainian citizens may also enter Georgia through a visa-free regime. The period of stay was extended to two years in 2023.

Moldova note: The provision of temporary protection in Moldova was effective as of 1 March 2023.

Montenegro note: temporary protection for those fleeing the war in Ukraine in 2023 was extended as follows: Male under 18: 555; Female under 18: 591; and male over 18: 1015; female over 18: 2138.

Montenegro and Serbia note: figures also include non-Ukrainian nationals eligible for temporary protection.

Serbia note: the 2022 total includes 8 people whose age was unknown. The 2023 total includes 3 people whose age was unknown. In 2023, temporary protection was provided for 403 persons for the first time. In the same period temporary protection was extended for total of 743 persons who had been provided with temporary protection for the first time in 2022.

Georgia note: Foreigner refused entry at the state border, is a foreigner formally refused permission to enter the territory of Georgia (under the Art. 11 of the Law of Georgia on The Legal Status of Aliens and Stateless Persons). There is no concept of internal and external borders in Georgia. The State border of Georgia is as defined under the Law of Georgia on State Border of Georgia. The grounds for refusal refer to the Law of Georgia on The Legal Status of Aliens and Stateless Persons. Each person is counted only once within the reference period, irrespective of the number of refusals issued to the same person.

Foreigner found to be illegally present, is a foreigner who is detected at the border crossing points of Georgia, while leaving the country, and have been determined to be illegally present in the country since the expiration of visa validity (in accordance with Art. 47 of Law of Georgia on The Legal Status of Aliens and Stateless Persons, Art 190 of the Administrative Offences Code of Georgia). This category may relate to persons who may have entered legally but have subsequently remained on an illegal basis. Each person is counted only once within the reference period.

Note: average statistical deviation margin +/-2.4%.

Georgia note: Georgian law differentiates status of "victim of trafficking" and "status of statutory victim of trafficking". The status of victim of trafficking is granted to the person by a Permanent Group of the Inter-Agency Council on Combatting Trafficking in Persons within 48 hours based on the questionnaire of mobile group of the Agency for State Care and Assistance of (Statutory) Victim of Human Trafficking (hereinafter – Agency for State Care), while the status of statutory victim of trafficking is granted by law enforcement authorities in accordance with Criminal Procedure Code of Georgia. The victim/statutory victim enjoys the same services (free legal aid, psychological and medical assistance, rehabilitation and reintegration measures, one-off compensation shelter and crisis center) of Agency for State Care after a person is granted with the status of victim/statutory victim.

Regardless to the difference in the procedure of granting the status, there is no difference between their rights during the process of investigation and/or prosecution. Number in brackets is the sum of both statuses.

Serbia note: numbers in brackets represent persons who were presumed victims, but in the end there were not enough elements for formal identification or they abandoned the procedure of formal identification. The source of information is national Center for Human Trafficking Victims Protection, Statistical Report for the 2023.
