

CERIS, SSRI Workshop

July 6th, 2023 - Brussels

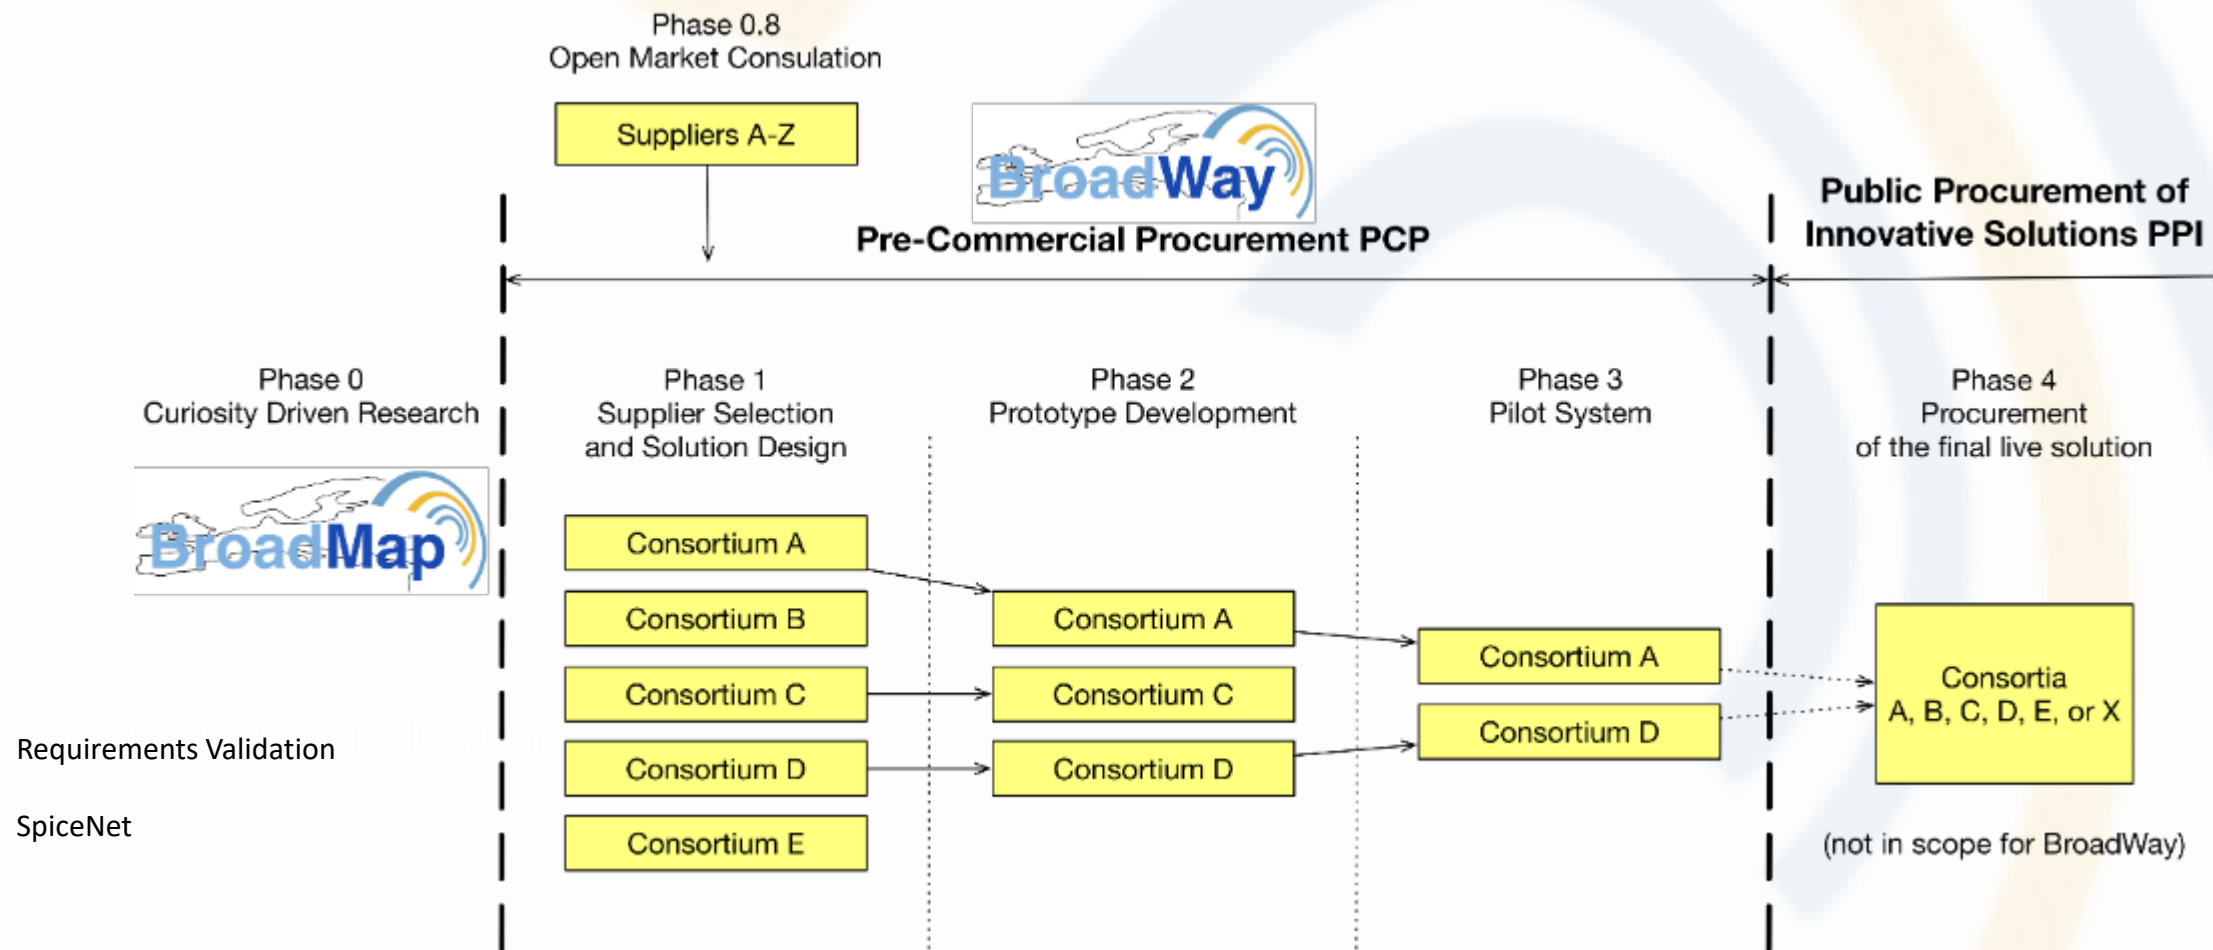

**Uwe Kippnich, Coordinator Security Research
Bavarian Red Cross –HQ, Munich**

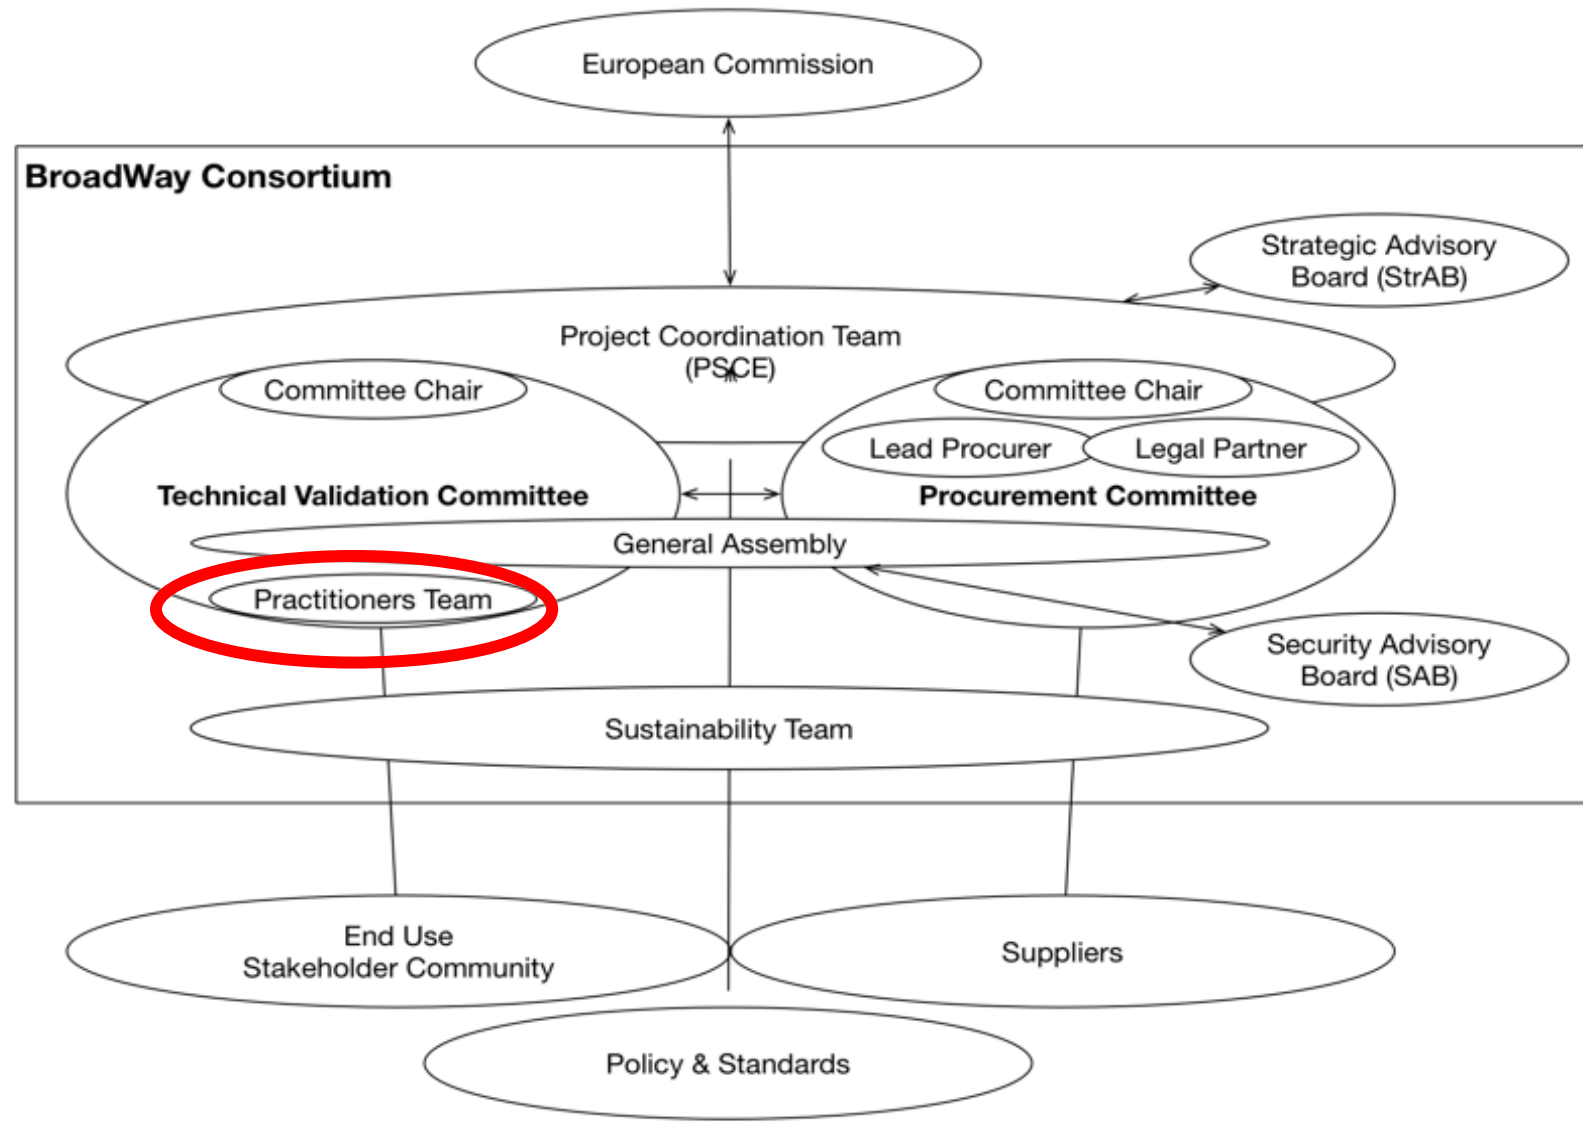

The journey starts 2016

PCP Process – im Detail

Practitioner Evaluation Team

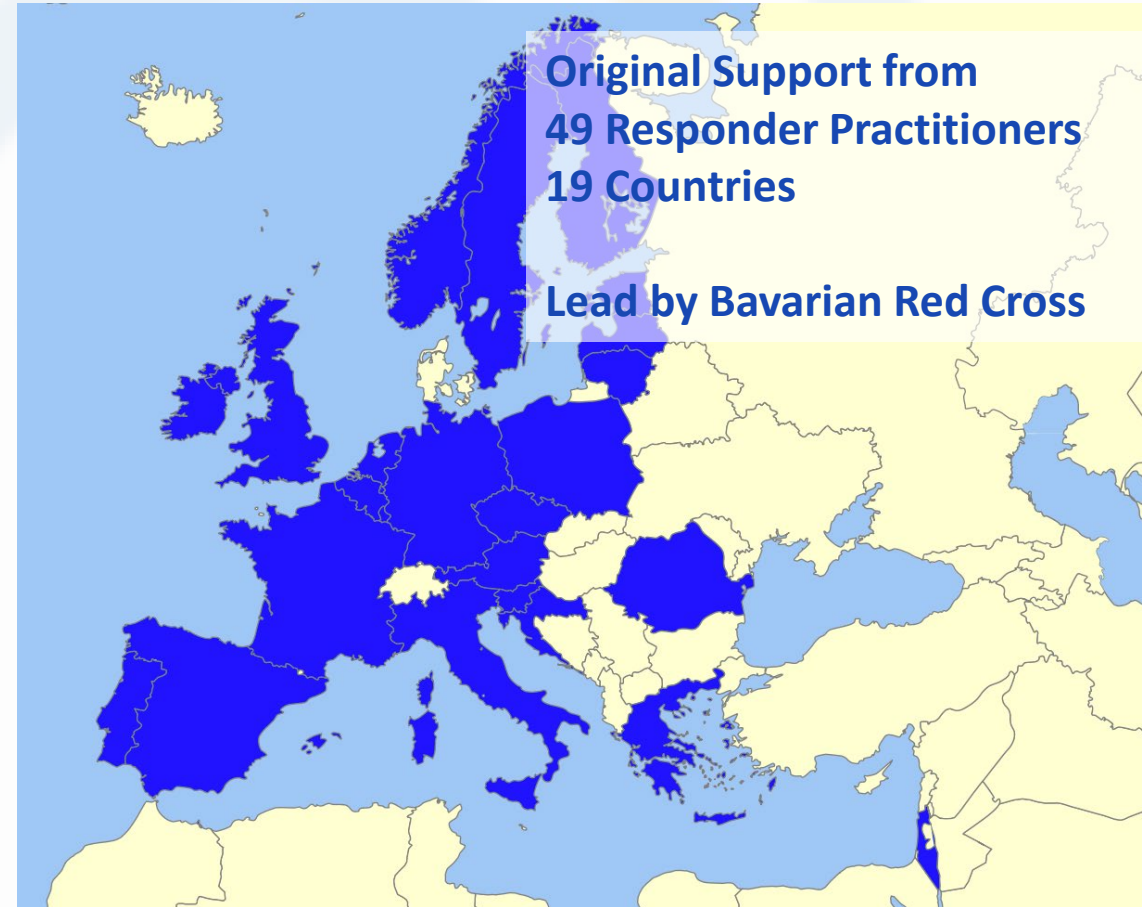

Practitioner Evaluation Team

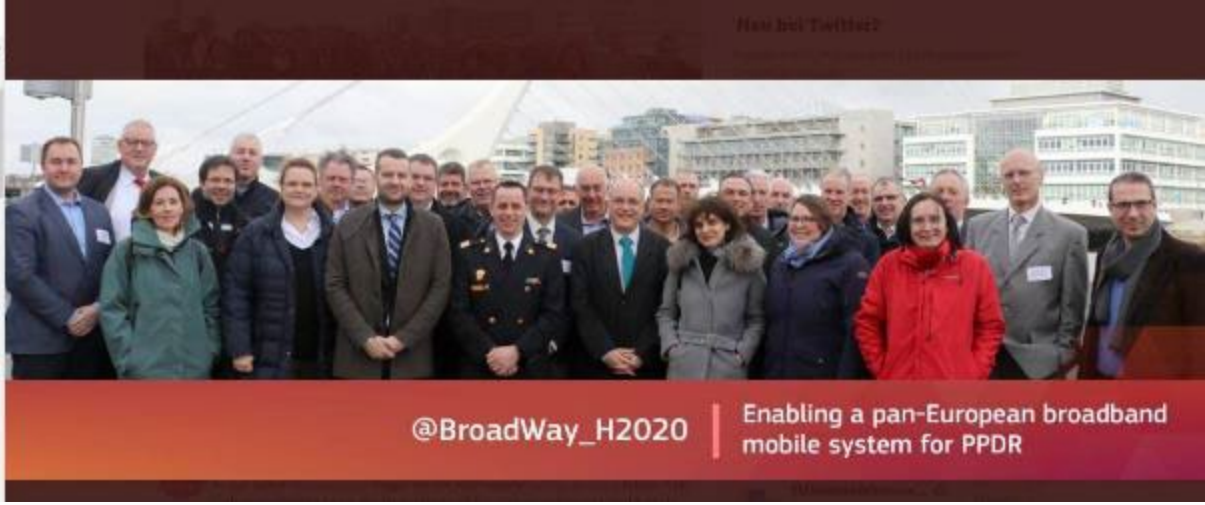

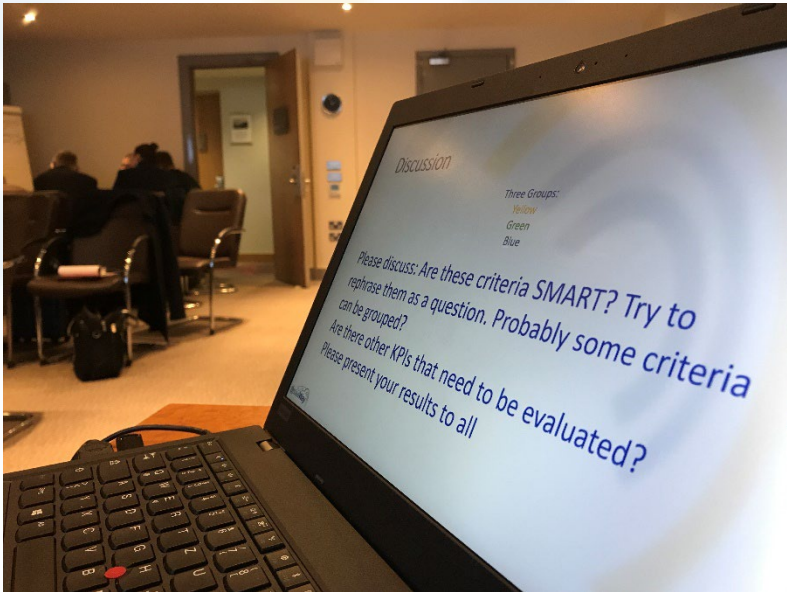

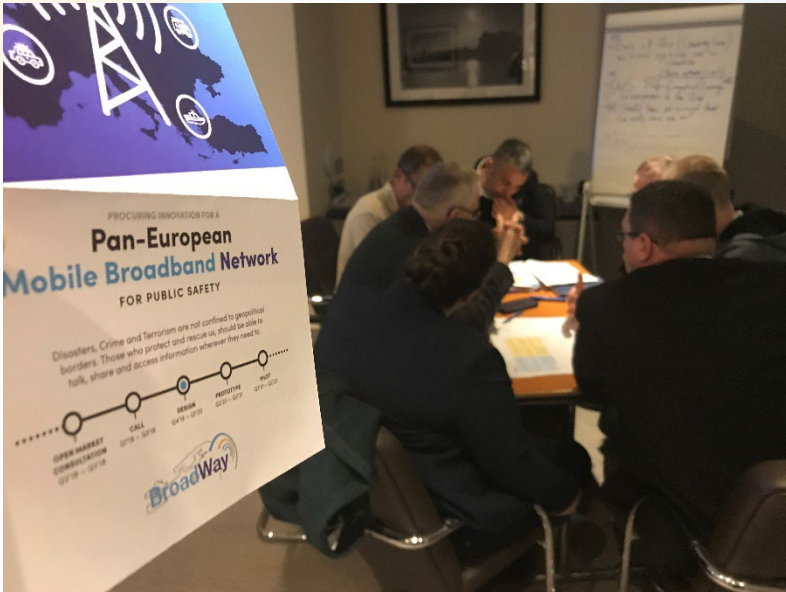

In the past, developments were mostly made by technicians. There were good ideas, that worked perfectly technically, but some were unsuitable for practice.

This problem was addressed by installing a Practitioner Evaluation and Validation Team

Practitioners from all disciplines
involved from across Europe

Discussion with Practitioners from all PPDR

3 Trial Scenarios – June/July 2022

Forest fire

Drug smuggling

Ferry fire

Trial Ferry Fire, Malaga, Spain

Challenges & Benefit of PCP Projects

- Different systems in different countries – definition of baselines?
- PCP Project- difficult to plan for the long term
- Work with what you get – locations were chosen by the consortia
- A lot of paperwork – from confidentiality agreements to signature lists
- Enhanced speed of development due to competition
- PCP – projects helps to find solutions accepted by the practitioners

Thank you!
