<p>Description (max. 300 words)</p> <p>Short description of the aim and working method of the practice. Please note that in this description, it must be clear that <u>there is an explicit connection to preventing and/or countering radicalisation and/or violent extremism</u>. This means that in the aims and/or the activities/methods/tools of the practice, there is a link to preventing and countering radicalisation and/or violent extremism. Practices without this link cannot be included in the RAN Collection.</p>	<p>TERRA is a Europe-wide network-based prevention and learning project, funded by the European Commission, DG Home Affairs. The lead partner is Arq Psychotrauma Expert Group in the Netherlands. Created using state of the art research and consultations with frontliners, academic experts, victims of terrorism and former extremists, it proposes a community approach designed to address the grievances which form the motivation for radicalisation, identify and halt the progress of an individual on a path to radicalisation, and prevent them from undertaking a terrorist act.</p> <p>The TERRA Toolkit is primarily intended to support existing or new networks of teachers, youth workers, law enforcement officers, religious leaders and local policy-makers as they exchange information on young people at risk of radicalising, and to come to a weighted judgment on the risks. It also informs journalists and policy-makers on influences they may have on the background factors that lead to radicalisation.</p> <p>The TERRA Toolkit is aimed at professionals Europe-wide, and addresses all common forms of extremism: right-wing extremism, left-wing extremism, Islamist extremism, separatism and single-issue extremism. One tool – the one for religious leaders – focuses only on Islamist extremism.</p>
