COMMISSION IMPLEMENTING DECISION

amending Commission Implementing Decision C(2015)9534 concerning the adoption of the work programme for 2016 and the financing for emergency assistance within the framework of the Asylum, Migration and Integration Fund

ANNEX

Annual work programme for 2016 and the financing for emergency assistance within the framework of the Asylum, Migration and Integration Fund.

On the basis of the objective of strengthening and developing the Common European Asylum System and enhancing solidarity and responsibility sharing between Member States covered by this budget line, this work programme contains the actions to provide emergency assistance.

All Member States, with the exception of Denmark, are participating in the "Asylum, Migration and Integration Fund": hence entities established in the participating Member States can take part as beneficiaries in the actions that are supported under this financial instrument. Entities established in Denmark can only participate on a no-cost basis.

All activities implemented under this work programme shall respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union, and shall promote gender equality, applying a full gender mainstreaming perspective, and the rights of the child.

Consistency, complementarity and synergies with other Union instruments shall be ensured.

As foreseen in Article 3(4) (5) of Regulation (EU) n° 514/2014¹ (Horizontal Regulation), actions in and in relation to third countries under this work programme will be carried out in synergy and in coherence with other actions outside the Union supported through Union funds, in particular external assistance instruments. The identification and implementation of such actions is fully coordinated with EEAS and relevant Commission's external relations services, including DG ECHO as far as humanitarian assistance is concerned.

As foreseen in Article 21(1) of Regulation (EU) n° 516/2014², the implementation of emergency assistance in third countries is consistent with, and, where relevant, complementary to the Union humanitarian policy and respects the humanitarian principles as set out in the European Consensus on Humanitarian Aid.

Gender-age markers should be used in EU-funded actions, to assess whether the needs and vulnerabilities of males and females of all ages have been identified and addressed³. All foreseen monitoring and evaluation activities will be done on the basis of data and indicators disaggregated by sex and age whenever activities are linked to individuals and will take into

Implementing entity

A Delegation Agreement with the United Nations High Commissioner for Refugees (UNHCR) will be signed in order to contribute to the development, in Greece, of the hotspot/relocation scheme as well as to the increase of asylum reception capacity (amongst others through rental schemes, hotel vouchers and family host programmes, as well as through the establishment and/or management of dedicated relocation sites, i.e. specific sites assigned by the Greek authorities for relocation applicants to significantly facilitate and streamline the relocation workflow). In order to implement these activities, UNHCR shall be entrusted with budget implementation tasks (grants and procurement). Funding for the envisaged activities will come primarily from AMIF and be complemented by support through ISF-Borders and Visa for the hotspots related actions (single delegation agreement based on two funds).

UNHCR was selected as the best placed body to implement the above activities due to their specific nature which requires a high degree of specialisation on migration and asylum issues. Through its mandate as received from the UN General Assembly in 1950, as well through the 1951 Geneva Convention on the status of refugee that bestows a direct role on UNHCR in this regard, UNHCR has been able to acquire a unique expertise in international actions to protect refugees and resolve refugee problems worldwide.

This was also recognised in the Leaders' Statement following the Leaders' Meeting held on 25 October 2015 on refugee flows along the Western Balkans Route, which welcomed Greece's intention to increase reception capacity to 30,000 places and committed to supporting Greece and UNHCR to establishing and/or managing another 20,000 places. This was regarded as an important precondition to make the emergency relocation system work.

Overall objective and purpose of the action

UNHCR will engage itself in the implementation in Greece of the emergency hotspot/relocation scheme and the provision of additional asylum reception capacity through some key activities planned under different pillars and chapters of interventions.

UNHCR is planning to work on two pillars, of which Pillar II falls under the Asylum Migration and Integration Fund:

PILLAR II: Support to the emergency relocation schemes

Pursuant to the two Council Decisions of 14 and 22 September 2015⁸, a total of 66,400 asylum seekers are to be relocated from Greece to the Member States of relocation until September 2017. The two relocation schemes have been adopted in application of Article 78(3) of Treaty on the Functioning of the European Union as Greece (and Italy) were considered as being confronted by an emergency situation characterized by a sudden inflow of nationals of third countries (with more than 856,723 arrivals by sea in 2015 and

⁸ OJ 2015 L 248, p. 80 of 24.9.2015; OJ 2015 L 239, p. 146 of 15.9.2015.

over 51,000 in 2016). Almost 85% of the inflow is originating from the top-10 refugee producing countries according to UNHCR.

The relocation schemes will be implemented by the Greek Asylum Service under the overall supervision of the Alternate Minister of Interior (portfolio: migration policy). Significant and enhanced support to the Greek authorities for the successful implementation of the relocation scheme is considered by UNHCR a top priority in order to protect refugee rights in the Union through preserving credibility of the Common European Asylum System. For this reason, UNHCR has offered to assist in the provision of at least 20,000 reception/relocation places, which are considered an important precondition to make the emergency relocation system work. Under the Delegation Agreement, UNHCR will provide the following support:

II.a. Support to the relocation process (e.g. information, referrals, equipment)

a) Provision of information to new arrivals concerning the relocation scheme through the deployment of affiliate workforce team on the 5 hotspot locations (20 persons), facilitated by the provision of interpretation services, as well as information material available in different languages.

b) Support the relocation procedures in close cooperation with the Asylum Service, the identification of asylum seekers to be relocated, as well as their referral, as appropriate. A team of 43 affiliate workforce will be deployed to the 5 hotspot locations, including Athens.

II.b. Establishment/management of 20,000 reception/relocation places

This activity will be implemented through e.g. rental, voucher and family hosting schemes, as well as the establishment and/or management of relocation sites. The envisaged capacity will be gradually reached on a needs basis. The target groups for the reception places in the relocation centers are relocation applicants while the target group for all other reception spaces are persons who have applied for International protection in Greece, in priority those who are relocation candidates. Persons who did not apply for International protection are not included in this scheme. Reception/relocation places will be in conformity with the standards and obligations foreseen in the legislation in force.

Support to activities under pillar II will be provided under this Financing Decision, while support to activities under pillar I will be provided under the Financing Decision for emergency assistance under the Internal Security Fund Borders and Visa.

The initial duration of the Delegation Agreement will be 12 months, starting 1st January 2016. However, taking into account the two-year duration of the emergency relocation schemes and depending on the needs, a continuation of the Agreement for another year might be included in the Financing Decision for emergency assistance under the Asylum, Migration and Integration Fund as well as the Internal Security Fund Borders and Visa for the year 2017.
