Frontex Operational Activities and Deployed Capabilities (December 2023)

Overall Frontex deployments

Week 50 (11 - 17 December 2023)

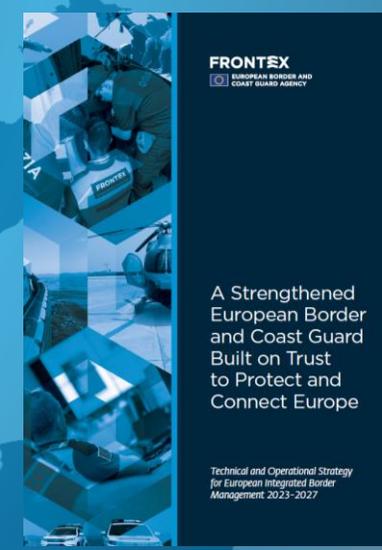

DISCLAIMER

The overview includes deployments of Technical Equipment and Standing Corps as well as other staff such as host MS coordinating staff and crew members, interpreters, non-EU countries' observers. The above data is for the operational response activities (joint operations and when applicable rapid interventions, multipurpose operations, JADs), deployment under return activities as well as situational awareness and monitoring activities.

European Integrated Border Management

- Facilitate Legal Border Crossings
- Ensure the Effective Prevention of Unauthorised Crossings of the External Borders
- Increase the Efficiency of the Union's Return Policy
- Detect and Prevent Serious Crime with a Cross-Border Dimension
- Achieve Effective Cooperation with Third Countries
- Ensure the Swift Registration and Provision of Care to Persons in Need of, or Applying for, International Protection
- Future-Proof the External Borders and Accelerate Innovation
- Ensure Good Governance and Sound Administration

Extending the Planning Horizon

Using foresight, observing the megatrends, to identify possible future scenarios supports long term investment planning in capabilities.

7 Priorities for 2037

Seamless Integrated and Interoperable European Border and Coast Guard

Integrated Information Management Across the European Border and Coast Guard

Strengthened Strategic Partnership and Reduced Illegal Pathways to Europe

Sustainable Operational Excellence

Futureproofing the External Borders and Accelerating Innovation

Relevance - Resilience - Excellence

Gradually Adopted Emerging Innovative Technologies

Improved Efficiency and Security of Border Crossing Points

Comprehensive Pan-European Network-Enabled Multipurpose Surveillance

Capability Roadmap for The European Border and Coast Guard

Capability-Driven Effects-Based Planning Ensuring Continuous Relevance of Capabilities

Sustainability and Adaptability Enabling Enduring Resilience

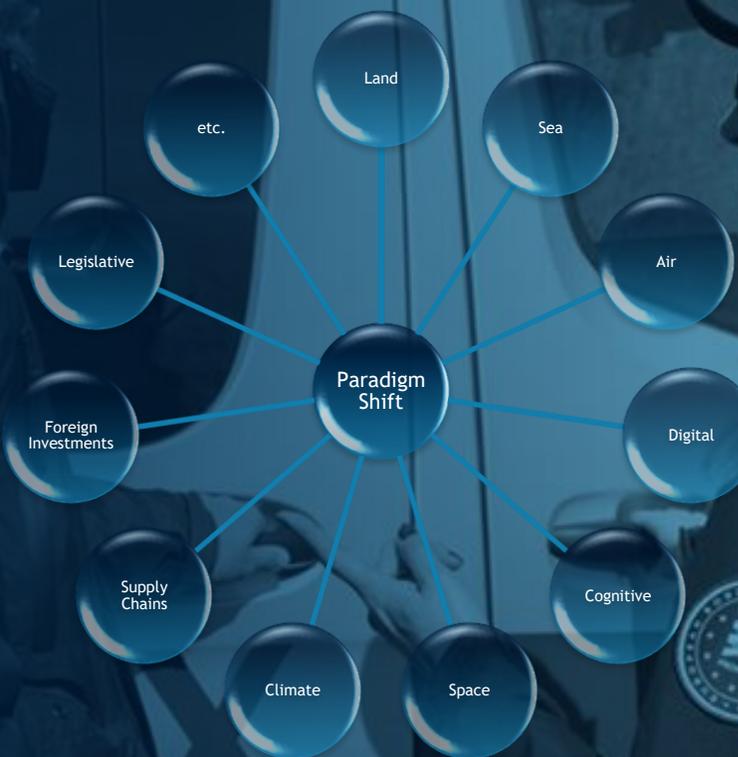

Futureproofing through Systematic Innovation and Consistent Excellence

2027
