Dear JHA Counsellors,

We kindly remind you that Article 8(1) of Regulation (EU) 2021/1232 of the European Parliament and of the Council of 14 July 2021 on a temporary derogation from certain provisions of Directive 2002/58/EC as regards the use of technologies by providers of number-independent interpersonal communications services for the processing of personal and other data for the purpose of combating online child sexual abuse, requires that the Member States, by 3 August 2022, and on an annual basis thereafter, shall make publicly available and submit to the Commission reports with statistics referring to online child sexual abuse on the following:

a) the total number of reports of detected online child sexual abuse that have been submitted by providers and organisations acting in the public interest against child sexual abuse to the competent national law enforcement authorities, differentiating, where such information is available, between the absolute number of cases and those cases reported several times and the type of provider on whose service the online child sexual abuse was detected;
b) the number of children identified through actions pursuant to Article 3, differentiated by gender;
c) the number of perpetrators convicted.

Therefore we would like to ask the relevant authorities in your Member State to submit the required statistics or, if it has been published, share that information with us as soon as possible.

Kind regards

Policy Assistant
